

# Church Planting Missionaries in Burkina Faso West Africa

## July Prayer Letter

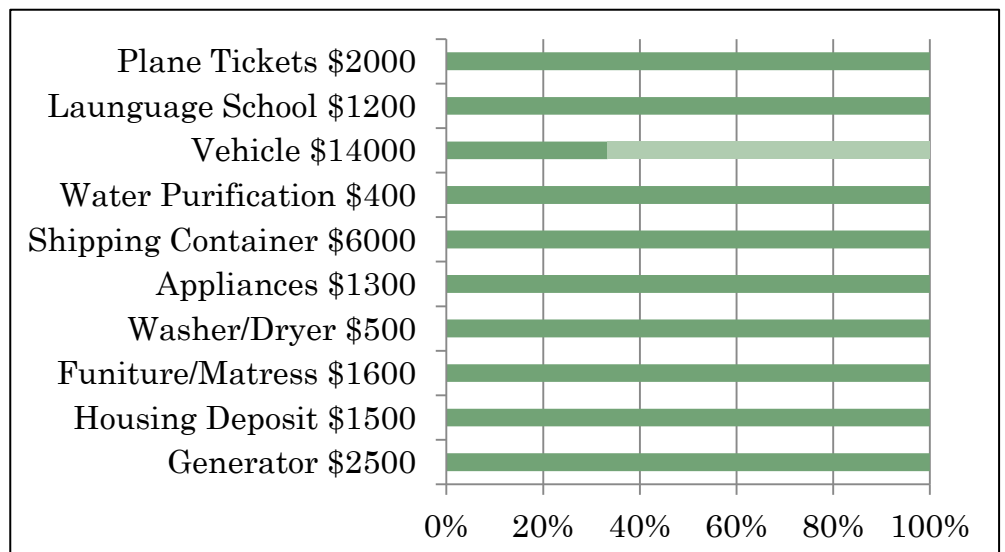

### First Month in Burkina Faso!!

These last few weeks on the field have been a whirlwind, we hit the ground running setting up our home and getting involved in the ministry of veteran missionary Keith Shumaker. We were able to find a house for us to live in as we serve here in Burkina, it is very nice and Ashley loves it, we had to pay a year's worth of rent up front so that the owner could fix it up for us. We should be moving in around July 13th and our shipping container should arrive soon after. Ashley and I have already started language school while we wait to get our home set up.

Since coming back I have been once again overwhelmed by the need, Bro Shumaker has done a great job of starting churches and training men and has several men trained and pastoring but it's hard not to walk around and see all the work that still needs to be done. 8000 villages and most have absolutely no gospel witness, millions of people that need to hear the gospel. I have been praying that God would give me a bigger vision for reaching these people. And all that starts with learning the languages that I will need to speak to people. Right now Ashley and I are working on our French, I will be working hard to perfect my French before starting the first tribal language Moore, Ashley ( who is starting from nothing with French) will need a few more months than me to finish French before starting learning Moore. Please pray for us as we work hard taking the first steps to reach these people, learning their language.

We feel very humbled and honored that you would consider us a worthy

### Setup Fund Details: Total \$30,000 - What we still need \$8,000
