

Church Planting Missionaries in Burkina Faso West Africa

November Prayer Letter

Nabitanga 2

This month we had a family from one of our supporting churches come and spend a week with us here in Burkina. While they were here, we were able to help a new church plant get off the ground by starting a kids ministry. The church is in a village called Nabitanga 2. Veteran Missionary Keith Shumaker trained and sent out Pastor Renee to start a new church in this Village. He has been working for about 5 months getting the church off the ground and God is blessing. Pastor Renee has already had a couple of people trust Christ as their savior. To help Pastor Renee, we held a kid's campaign and gave away gifts to over 250 kids, (Special thanks to the Reynolds family and Trinity Baptist church in Newnan Ga, for collecting the gifts and sending them here to Burkina Faso). We shared the gospel with all who came and let them know about the church and the kids program that we will continue having every week on Wednesday.

Last week I went out to the village again and there were over 200 kids that came back to sing and listen to another message. Please pray for this new church and for Pastor Renee as he works to minister to the people of this village.

Update: Ashley and I are in language school every day; I am preaching a few times a week and getting better with my French, Ashley is also making great progress not only in the language but also in settling into the country and adapting to culture. I am thankful to work in Veteran Missionaries Keith Shumaker's church and have been able to work with him and fill in some different areas of the ministry so he is able to travel and preach, Please pray that God would us here to reach these people with the gospel.
